

Welcome to Michigan Mr. President.

Thank you for visiting Michigan to answer questions about the economy at a town hall meeting.

Here's our question:

Mr. President, Michigan has lost enough jobs. Michigan can't afford the Employee "Forced" Choice Act. Will you stand *with* workers and small business owners and stand *up* to big labor bosses against this job killing legislation?

Mr. President, here's where things stand in Michigan:

- General Motors Corporation - **Bankrupt**
- Chrysler - **Bankrupt**
- Jobs Lost Due to Auto Company Restructuring - **600,000**
- National Unemployment Rate - **9.5%**
- Michigan Unemployment Rate - **14.1%**
- Metro Detroit Unemployment Rate - **14.9%**
- City of Detroit Unemployment Rate - **23%**
- Projected Job Loss if Employee Forced Choice Act Passes - **600,000**

Mr. President, won't you protect Michigan from the economic disaster of the Employee "Forced" Choice Act?

"For every three percentage points gained in union membership through card checks and mandatory arbitration, the following year's unemployment rate is predicted to increase by one percentage point and job creation is predicted to fall by around 1.5 million jobs."
